The Grooming Company, parent company for the Middle East's premier grooming concepts, has all three of its prestigious brands located at The Retreat on Level Four of Grosvenor House.

N.Bar, with numerous branches conveniently located throughout Dubai, has revolutionised nail treatment, turning what was previously a side service in beauty salons into a dedicated philosophy for nail care. Similarly, the subsequent establishment of 1847, the Middle East's first dedicated grooming lounge for men, offers an exclusive retreat for discerning executives. And JetSet, the most recent addition to The Grooming Company's portfolio, has elevated the concept of everyday hair care, delivering hair styling essentials to busy women. All three brands are founded on The Grooming Company's pioneering formula of absolute perfection; stringent hygiene, trained specialists, premium products and a no-compromise approach.

Whether you want fast glamour for nails, executive grooming for men or fabulous hair days, The Grooming Company philosophy assures you'll experience the best from these genre-defining brands.
